

Water Toll Rates

The Board of Trustees have passed the Tax and Tolls Bylaws for 2018.

Residential categories will now be billed Bimonthly with new due dates being implemented in 2018. Meters will still be read on the 15th of every month to allow customers to track their consumption. Utility Billing Invoices will be mailed out before the end of every 2nd month.

NEW BIMONTHLY DUE DATES: March 31, May 31, July 31, September 30, November 30 and January 31.

Commercial properties, which includes Industrial, Institutional, and Commercial Strata properties, will be charged a monthly base rate in accordance with the Meter Size required to service the connection. Other properties in this category are Hotels, Agri-Commercial Farm Accommodations, and Schools/Campuses.

In addition to the base charge, all consumption will be charged at current rates. No allotment is included in the base rate.
